

Frontier Barriers

A new JSP blow moulded barrier manufactured from UV stabilised impact modified HDPE.

The design process was carried out in tandem with leading UK contractors to maximise wind flow through and around the system for unbeatable stability.

Tested to ensure wind stability classes within BAB442 are achieved.

Frontier™ Cross-Line™ fully meets guidelines as set out by the Safety at Street Works and Road Works: A Code of Practice

Anti-trip or Standard Feet Option Available.

Blue frontier barrier complete with anti trip feet and PVC branding plate. Fully recyclable, plate attached with PVC toggles.
