

Duraflex Bollard

Retro-Reflective Self Righting Bollard

The DuraFlex is a durable and passively safe traffic bollard that will rapidly return to a vertical stance following an impact.

- All round 360° visibility
- EN 12767:2007 100kph NE4 compliant
- 100 % Recyclable shell
- Compatible with any standard base light, socket or ground anchor

The DuraFlex is the latest addition to our traffic bollard range. This new bollard has been engineered to produce similar results to the highly successful TrueFlex RSRB, delivering reliable performance at a highly competitive price point.

Installation options: The DuraFlex is easy to install using our foundation cage, NAL socket, or can be retro-fitted to any redundant base light.

Maintenance: The DuraFlex is very low maintenance. All surfaces of the bollard can easily be cleaned with a mix of mild detergent and water. Regular inspection and cleaning schedule is recommended to ensure optimum performance.
