

# Narrow Flat Blade Bollard Yellow & White

Highly visible day and night using retro-reflective vinyl.

Withstands multiple impacts at speed.

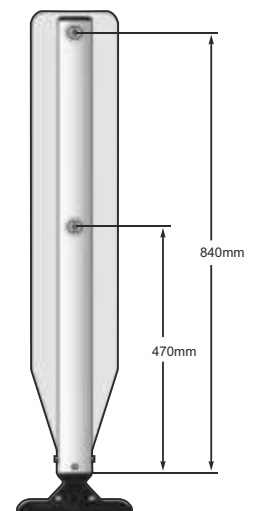

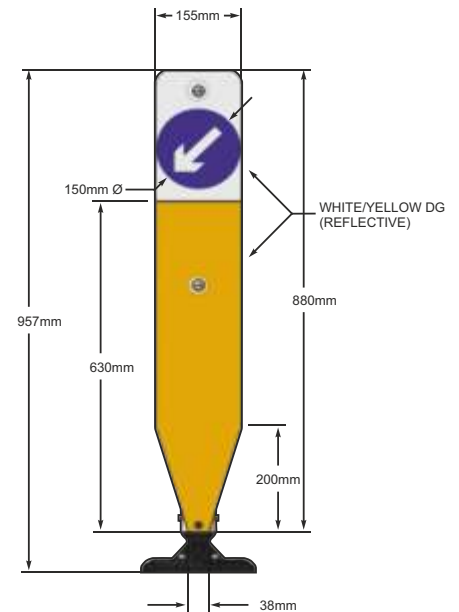

The Flat Blade bollards are made of durable polypropylene and are available with many different combinations of retro-reflective sheeting.

Quick Installation and Zero Maintenance.

Can be surface mounted or fixed securely to a foundation cage that has been concreted into the ground.

With no need for additional maintenance, as with all devices installed on the highways, external surfaces should be cleaned with diluted mild detergent.
